VICTORY WAS A POPULAR ONE

Thousands Cheer Lustrily When He
Waves the Flags of France and the
United States—Merz, Who Finished
Third, Makes Last Lap With His
Machine on Fire—Order of the
Finish.

Indianapolis, May 31.—Jules Goux in the French car Peugeot, won the \$50-mile prize of \$20,000 and practically everything else in sight. His winnings will aggregate more than \$35,000. The order of the finish was:

Driver and Car. Time.
1—Jules Goux (Peugeot)..... 6:21:43
2—Spencer Wishart (Mercedes)..... 6:45:06
3—Charles Merz (Stutz)..... 6:59:35
4—Albert Joyot (Sunbeam)..... 7:05:08
5—Theo. Pilette (Knight)..... 7:19:25
6—Howard Wilcox (Graves)..... 7:22:38
7—Ralph Mafford (Mercedes)..... 7:27:17
8—Louis Darrow (Cax)..... 7:39:50
9—G. H. Clark (Tulsa)..... 7:49:21
10—W. Haug (Mason)..... 7:53:21

A great cheer arose from the grandstand when Goux flashed across the wire, the winner of the big race. He went on and a second ovation was given him when he stopped at the pits.

When Goux stopped the winning car at the French pit his manager leaped on the track, and before the driver moved from his seat embraced and kissed him. Goux stepped to the track, waved the stars and stripes, then the French flag, to the grandstand.

Goux changed tires eight times during the race. He cried as tire after tire burned upon his machine in the 1st 150 miles. His victory was a popular one, and when he drew up at his pit and waved the flags of France and the United States, the crowds went wild.

Spencer Wishart, in Mercer special No. 22, also received a cheer when he raced under the checkered flag, the winner of second place.

A broken magneto in the 188th lap robbed Gil Anderson and his Stutz of the second prize when, after heavy driving, it appeared to be safely in his grasp.

Gives Crowd a Thriller.

With third place sure, Martin, Merz's mechanician, coming down the back stretch, crawled out on the hood and had it unbuckled so the pitmen could extinguish the fire which had started.

In the last lap he gave the crowd one of the greatest thrillers of the big race. Martin fought the flames during the entire lap, Merz sticking grimly to the wheel. They jumped from the car before it fairly stopped at the pit, and hand grenades were used in putting out the fire. Merz was acclaimed the winner of third place.

One accident marred the race. Jack Tower suffered a broken leg and Mechanician Lee Gunning had three ribs broken. Their Mason car was upset on the fifty-first lap.

All trophies in the race were won by Goux. He led at the finish of the 200, 300 and 400 miles marks and each century mark gave him, respectively, the Remy Grand Brassard trophy, valued at \$2,500; Prestolite trophy, value \$2,500, and the Wheeler & Schieber trophy, valued at \$10,000. Goux got into the lead in the first lap of the race and held it from that time to the end.

UNVEIL NATIONAL
MAINE MONUMENT
IN NEW YORK CITY

PRESENTED TO NEW YORK

Splendid Ceremonial Attends Unveiling of Maine Monument.

New York, May 31.—The national Maine monument was unveiled and presented to the city while several thousand citizens stood with bared heads and white gloved soldiers and sailors stood at present arms. It needed no elaborate ceremonial to make the scene impressive. The flag draped monument at the southwest corner of Central park faced the speaker's stand, bedecked in by closely packed humanity in the plaza. Glittering uniforms everywhere, glistening arms and, framing it all, the populace.

General James Grant Wilson, chairman, finished his address by turning to Mayor Gaynor and saying: "That it may be carefully guarded by you and your successors in the mayoralty of this great metropolis during the coming centuries."

UNCLE SAM IS SURE

MEANS MUCH TO NAVY

Uncle Sam Secures Canal Rights and
Islands From Nicaragua.

Washington, May 31.—The United States will secure a perpetual and exclusive franchise for the building of an interoceanic canal through Nicaragua and also a naval station, together with several small islands on the Pacific coast of that country. This is insured through the decision just reached by the Wilson administration to support the treaty negotiated in the closing days of the Taft administration between this country and Nicaragua. Through the ratification of this treaty the Nicaraguan route will be forever closed to every nation except the United States.

Possession of a naval base site on the Gulf of Fonseca is regarded of vital importance to the naval interests of the United States, in view of the opening of the Panama canal.

NEWETT MUST WIN
OR FIGHT WILL BE
CARRIED TO FINISH

TO APPEAL IF HE LOSES

Editor Newett Will Refuse to Abide by an Adverse Verdict.

Marquette, Mich., May 31.—Colonel Roosevelt's case will probably not be completed before Monday night, there still remaining at least a dozen witnesses for the prosecution. Court adjourned at noon today.

If George A. Newett, defendant in Roosevelt's libel suit, is asked to pay any amount from 6 cents, which constitutes "nominal damages," up to \$10,000, he will appeal to the supreme court on whatever grounds can be worked out. That Newett will refuse to abide by an adverse verdict is declared by his attorneys, coupled with a declaration that the case will be fought as long as there is a foot to stand upon.

Lawyers engaged in the libel suit are looking forward with great interest to a prospective ruling by Judge Flannigan, construing section 10425 of the Michigan compiled laws, bearing on libel. The law was designed to protect newspapers from the consequences of honest mistakes and provided that demand for retraction of a libelous article should be made by the offended party. Colonel Roosevelt made no such demand, it is admitted. The matter will come up when counsel for Mr. Newett attempt to show the editor made his charge of drunkenness in good faith, and without malice, believing it to be true.

Speaking of figures, 1,000 men sat down to a banquet on the twenty-seventh floor of the fifty-seven-story Woolworth building.

DEMON OF WAR
GETS SET-BACK
WHEN NATIONS
PLEAD SANELY
EIGHT NATIONS
FOR BRYAN PLAN

Signify Willingness to Interchange Peace Proposals.

WOULD MAKE WAR IMPOSSIBLE

France, Russia, Great Britain, Italy, Brazil, Sweden, Norway and Peru Favor Entering Into Negotiations With the United States—Favorable Reply Expected Later From Germany and Possibly Japan.

Washington, May 31.—Eight nations have signed a willingness to enter into negotiations with the government of the United States for the interchange of peace proposals, as proposed by President Wilson. The nations that look with favor upon the Bryan sober second thought peace plan are Great Britain, France, Italy, Brazil, Sweden, Norway, Russia and Peru.

All these nations apparently are willing to bind themselves to an investigation of the controversy that war shall not be declared. Mr. Bryan is confident that if this means of giving nations time "to cool off" is adopted, war will be practically impossible. If arrangements of this character are exchanged with these eight nations, it is the belief here that other powers will follow the example and that a most substantial advance towards world peace will have been made.

The students of international affairs in congress and in diplomatic circles believe the proposed Bryan peace agreements will result in more work and trouble and will have no more satisfactory results than the arbitration treaties which were proposed under the Taft administration. Both France and Great Britain negotiated arbitration treaties with the Taft administration, and their acceptance of the Bryan suggestion was expected.

The absence of Germany and Japan from the peace list was commented upon, but it is believed that Germany will make a favorable reply later.

Secretary Bryan also announced that arbitration treaties between the United States on the one side and France, Italy and Spain on the other have been renewed. Also Great Britain, Japan, Norway and Portugal have signified their intention of renewing the existing United treaties.

MRS. BISHOP GETS DIVORCE

Consultation Between Attorneys Precedes Termination of Case.

New York, May 31.—After a consultation for nearly five hours between the counsel for Mr. and Mrs. James Cunningham Bishop in Mrs. Bishop's suit for divorce on the ground that the banker was guilty of misconduct with Mrs. Leila Gaines Gwathmey, wife of J. Temple Gwathmey, former president of the New York cotton exchange, the lawyers for both plaintiff and defendant announced to Justice Goff that they immediately awarded a decree to Mrs. Bishop.

Justice Goff expressed the wish that both sides come to some amicable arrangement regarding alimony and the custody of the children, and gave them until Monday to do so.

Interurban Cars In Collision Near Akron, Ohio.

FILLED WITH EXCURSIONISTS

Two Passengers Lose Both Feet In the Smashup, While Others Receive Severe Scalp Wounds and Sprained and Bruised Legs—Trolley Pole of First Car Broke, but Crew Had No Time to Stop Collision.

Akron, O., May 31.—Twenty persons were injured, four seriously when an interurban car on the Northern Ohio Traction line crashed into the rear of another car filled with excursionists bound for Cleveland, eight miles north of Akron. The trolley pole of the first of the two cars, which left Akron at about the same time, broke, and before the conductor could flag the second car the collision occurred.

The persons most seriously injured were standing on the back platform of the front car and did not have time to jump.

Frank Betyurs of Coshocton, O., and Chester Jenkins suffered the loss of both of their feet. Mrs. William Allhouse of Akron received a scalp wound and several of her teeth were knocked out, and Mrs. Josephine Kline of Akron suffered the loss of several front teeth and was badly bruised.

Others in the front car received scalp wounds and sprained and bruised legs when they were thrown against the seats in front of them by the collision.

Fifteen of the most seriously hurt were taken back to a hospital at Akron. The others were taken to Cleveland.

Columbus, O., May 31.—Prospects for Ohio getting a goodly portion of the \$500,000 appropriated by the federal government for good roads are looking brightly since State Highway Commissioner Marker visited boards of county commissioners of Franklin, Muskingum and Licking counties and secured the adoption of resolutions pledging the counties to put up \$2 for every \$1 contributed by the federal government. Each of the counties pledged \$20,000, which assures acceptance of the federal offer.

MILITANT SUFFRAGET
AGAIN WINS LIBERTY

BY HUNGER STRIKE

Mrs. Emmeline Pankhurst Again Wins Her Liberty.

London, May 31.—Mrs. Pankhurst, the suffragette leader, has won her liberty by another hunger strike. She was freed from Holloway jail, as she is too weak to be detained in prison unless forcibly fed. It is understood that she has swallowed nothing but water since Monday last, although tempting invalids' dishes were provided. Mrs. Pankhurst in a motor ambulance was taken to the house of a friend in the west end of London, whose address is not known to the public.

PUGILIST INTERRED

Piqua, O., May 31.—The body of Luther McCarty, who met his death last Saturday during his fight with Arthur Pekey at Calgary, arrived here last night. In the funeral party were Mrs. Rhoda McCarty, widow of the fighter; Bill McCarty, McCarty's manager, and Fred Sears. The funeral was held here today.

Aviator Drops In Marsh When Parachute Fails to Work.

New York, May 31.—Arthur Lapham, a young man who has recently been attracting attention by making parachute leaps from aeroplanes, plunged to the earth from a machine at Oakwood Heights, Staten Island, and when those who ran to his assistance reached him only his head and shoulders were visible. They had to dig him out with a shovel. He had landed in marshy ground within a few feet of a small stream, and his rescuers swam across it. He was unconscious, but apparently suffering great pain, and the task of getting him out of the earth was accomplished with difficulty. It was nearly an hour before he was placed in an ambulance from the S. R. Smith Infirmary at Tompkinsville. It is said that he is not seriously injured, but is suffering greatly from shock.

Harry Brown, from whose biplane the leap was made, circled the field several times, but did not appear to be able to go higher than 200 or 250 feet. It appeared that his engine was not working properly, and no one supposed that Lapham would attempt to jump when so near the earth. Suddenly he was seen to leave the biplane. There was a flutter of canvas pieces as the wrapping about the parachute ropes were carried away in the wind. The body of the man was seen to shoot downward, but there was no opening of the parachute. Just before Lapham struck, the canvas spread, but too late to break the force of the fall.

TORNADO TERRORIZES
PEOPLE OF VIRGINIA

Norfolk, Va., May 31.—A tornado hit this city, razing houses and felling trees in its path. In one section of the city 15 houses were blown down. A score of people are reported drowned from small boats in the bay and in Hampton Roads. Other nearby places also report losses. The storm hit Hampton, Newport News, Portsmouth, Ocean View and Old Point Comfort.

Bellefontaine, O., May 31.—Harry Huston, 10, was accidentally shot by a companion as they were playing with a target rifle. The bullet entered Huston's abdomen and he may die.

DECEASED VETERANS ONCE MORE HONORED BY COMRADES WITH IMPRESSIVE CEREMONIES

THINNED RANKS A NOTICEABLE FEATURE

Large Crowds Attend Annual Decoration Ceremonies in This City—Attorney D. L. Thompson Delivers Appropriate Address to Crowded House—Ladies of G. A. R. Serve Refreshments to Old Warriors and Friends—Other Points Observe Day.

Decoration Day was fittingly remembered in Washington Friday. The stars and stripes waved throughout the business section and along the line of march to the cemetery and but few homes in the city but what bore some decoration in honor of the day. While threatening clouds gave promise of the usual Memorial Day deluge, they vented their wrath upon other neighborhoods and the day in this vicinity was one of the most pleasant in memory.

All afternoon the streets were lined with people, many not going to Memorial hall for the Decoration Day program, waiting to join the ranks for the March to the cemetery.

There was a large attendance at the memorial services, conducted with Commander D. R. Jacobs, presiding, and of that patriotic interest called out by no other day.

The reading of Gen. John A. Logan's Order 29 by Comrade Frank M. Allen and of Lincoln's Gettysburg oration by Miss Clara Thurston, were impressive features of the program.

Attorney D. L. Thompson delivered a splendid short oration.

Hon. W. D. Blakemore, a comrade from Iowa, also made very interesting remarks.

About three o'clock the procession formed for the march to the cemetery and the decoration of the graves of deceased comrades under command of Comrade Charles McCrea, marshal-in-chief and his assistants. A long line of carriages and autos accompanied the veterans of G. A. R. and their auxiliaries.

Arriving at the cemetery both the graves of dead comrades and ex-Confederates were decorated by Company M, 4th regiment, O. N. G. and Sons of Veterans, who turned out in large number.

Following this annual tribute of flowers placed on each grave the impressive services in honor of the unknown dead were held at the cen-

NEW MEMBERS ARE RECEIVED IN W. R. C.

Members of John M. Bell, W. R. C., met in special session Thursday afternoon. Mrs. Jennie Morris and Mrs. Edwards received the degrees of the order and were taken into full membership. The ladies are kept busy now getting ready to help entertain the encampment in June.

Quite an honor has been accorded No. 12, having been selected by the department president to exemplify the ritual as a school of instruction for 400 or more delegates who will attend the state convention which convenes at this place during the encampment. The convention will be held in Grace M. E. church, the school of instruction will be in Memorial hall.

Mrs. Brush, the department President, having seen the local corps put on the work at the district convention here last October complimented the corps very highly by saying it was the best drilled corps in the state. The membership of the Woman's Relief Corps in Ohio is 12,800.

A silk flag will be presented to the High school and one to Grace Sunday school by the department. The ladies will decorate an automobile for the parade on Wednesday. At the close of the meeting the ladies went in a body to the residence of Mrs. Jas. Hayes and initiated Mrs. Hayes into the order, she having had the misfortune to break an ankle some days ago and was not able to go to the hall for initiation.

STRAW TOO HOT ALARM TURNED IN

Thursday evening a passerby discovered smoke issuing from a boxcar near the Pennsylvania station and turned in an alarm, but the threatened fire was averted by the use of a small chemical extinguisher with little or no damage resulting.

It is supposed that the damp straw became overheated, and that if the fire had not been discovered when it was, it would have destroyed the car.

NERVY WASHINGTON WOMAN FORCED BOLD INTRUDER TO PLUNGE THROUGH WINDOW

YOUNG COLORED MAN CONFESSES TO DEED

Mrs. Carrie Deere, Locked in Bed Room With Drunken Intruder, Battles With Him Until He Is Forced to Leap Through Window, Horribly Lacerating Face and Neck—Leo Brandon is Man Who is Held for Entering Inhabited Residence in the Night Time.

Awaking in the stillness of the night and discovering a colored man sitting beside her bed and battling with the fellow until she literally forced him to plunge through the window which lacerated him in a fearful manner, is the experience of Mrs. Carrie Deere, of East Temple street at an early hour Friday morning, and as a result of her nervous fight with the fellow he was later arrested and is now in the county jail awaiting action of the courts for his bold deed.

The fellow under arrest is Leo Brandon, son of Doc Brandon, a resident of the city, is second cook at the Cherry Hotel, and who, so far as known, has heretofore borne a very

good reputation. He confessed to being in the room, as the fearful wounds on his face and neck so clearly indicate, but denies all knowledge of how he got there. He admits having been drinking earlier in the evening, and it is said that he is of the opinion that he walked into the Deere premises without knowledge of what he was doing.

Mrs. Deere was aroused about four o'clock, and discovered the intruder crouched on the floor near her bed, and when she screamed he sprang to his feet and dashed about the room in a dazed fashion, seeking some means of escape.

After the first few moments dashing about the room he sprang for the window. "Don't you break that!" commanded Mrs. Deere, whose fighting blood was now thoroughly aroused. Brandon smashed the window with his fist receiving some ugly cuts on his hand. Springing toward the man she seized him and pulled him back into the room, but he shook himself free from her grasp and again leaped toward the window as if to plunge through.

Again and again Mrs. Deere pulled him back, and then seizing a chair commenced striking at him with it. Realizing that he was being cut to pieces in his attempts to crawl through the broken glass, Brandon seized a rug, placed it over his clenched fists and broke another window out, plunging through it and escaping after he had left blood all over the room from the big gashes in his face and neck where the glass had cut him.

Mrs. Deere's son-in-law, Ray Maddox and wife and child were in an adjoining room, and Mrs. Deere's small son was in the room with her. During the excitement the door between the two rooms was locked and Mrs. Deere for the most part fought the intruder alone until she literally forced him through the window. A loaded shot gun sat in the corner of the room near the window, but Mrs. Deere could not reach it until after Brandon escaped. Brandon made no effort to secure the weapon, although it was within easy reach. His only

object appeared to be to escape and to do it in a hurry.

While he was making his get-away Ray Maddox hurled a pitcher at him.

The police were summoned and trailed the man for some distance by the countless drops of blood.

After securing a good description of the man Patrolman Bell, who is thoroughly familiar with the colored population of the city, thought Brandon must be the man, and within a short time he and Patrolman Vaughn had Brandon in jail.

Brandon's face was a horrible sight, and his clothing was covered with blood. A physician who dressed his wounds in the county jail found a section of glass one inch long and a half inch wide still imbedded in his face. One sharp section of the glass nearly touched the jugular vein.

It is supposed that he entered the house by the front door, which Mrs. Deere had forgotten to lock.

IN SOCIETY

Miss Fannie Hyer gave a beautiful rug. The guests were taken up and the guests in honor of Miss Jane Ellis, who married Mr. E. E. Bush next Wednesday. The table was a picture with its centerpiece a miniature bride and bridegroom at the altar, rising from a bank of green. Overhead, swung a large bell, and at either end of the table pink roses and smilax. Covers were laid for six, Miss Mabel Cox, of Eaton, an out-of-town guest.

The Senior girls of the Washington C. H. High school were complimented Thursday by Mrs. V. J. Dahl with an elaborate five-course one o'clock luncheon. Mrs. Dahl gave the luncheon in honor of her niece, Miss Mary Tysor, who is one of the graduates.

The affair was characterized by artistic appointments and altogether as pretty as it was delightful. An immense bowl of white roses formed the central adornment of the table and at each place were laid, with the place cards, red and white roses, the class colors.

Mrs. Dahl and Mrs. W. A. Tysor were seated with the Senior girls, Misses Mary Tysor, Katherine Mark, Ruth McCoy, Ailee Parrett, Jane Saxton, Sarah Holmes, Mary Weaver, Ruth Smith, Mary Collins, Helen Arehart, Anna Conner, Elizabeth DeWees.

Paul Craig entertained twenty-five girls and boys Friday evening at the home of his parents, Mr. and Mrs. D. C. Craig, in honor of Logan Herbert, of Columbus.

The Craig home, one of the most beautiful places in Washington for elaborate entertaining, was placed entirely at the disposal of the guests and the evening was as merry and delightful as it could be made.

An Office for Everybody.

The local Board of Health and the Health officer should not be expected to perform impossible tasks and to be in every nook and corner of the city ferreting out violations of the laws designed to bring about a better condition of affairs and therefore better health to the people of the city.

In the first place in cities of the size of Washington the positions are not remunerative ones by any manner of means and the unpopularity which attaches to the officials of the Department of Health who try to do their duty, is intense and costly to business success.

In the second place people, generally speaking, for some unknown reason, rebel at every regulation designed to promote sanitary conditions and become undying enemies of all officials who attempt to enforce these regulations.

Just why this is true is a mystery which has never been solved, but it is true nevertheless.

Therefore every good citizen should appoint himself a member of the Board of Health and a special Health officer and look after his own premises the very first thing. He should ascertain just what the requirements are and then set to work to enforce them on himself. Real down-right sincerity might result in adding to the laws in existence and doing really more in the way of better conditions than a literal compliance with the law.

Having "set his own house in order" every good citizen then has a perfect right and it is his duty to look about him and see that his neighbors do likewise.

If his neighbors rebel then carry the report to the Health officer and stand at his shoulder while he makes the offender "come clean."

In spite of all the warnings, requests and threats published by the Health officer there are a number of residents of Washington who pay no more heed to cover filth receptacles which have come under the ban than they do to the flies, gnats and poisonous insects such places breed by millions.

This is the time of year when one fly means a million later on and no one is so far back in the dark ages now that he does not know what a menace to public health flies are demonstrated to be.

It is high time to take the matter in hand and see to it that offenders against the public health are made to obey the law at least. No good citizen need sit back and complain about the failure of the Health officer and expect him to do it all.

Every good citizen should get busy.

Here is a golden opportunity for every man to hold an office of importance. All that is necessary is to file your own application, make the appointment and enter upon the discharge of the duties of the office.

An office and a good one for everybody.

No doubt many easy going citizens who wonder where the flies and bugs come from would be surprised, if they made a circuit around their premises to find the flagrant violations of these most necessary laws.

Too much importance cannot be attached to these rules of the Health department of the state and any man who has a hide thick enough to persist in violating these rules will not be hurt by the infliction of a penalty for his conduct.

A short and energetic crusade right now, continued for a few weeks, will be productive of good of inestimable value later on. The good which follows the observance of the rules requiring cleanliness, both direct and remote, and the evil which follows the non-observance of these requirements is long enduring. The crusade against filth and disease to be effective, must be general and those who will not join voluntarily should be compelled to do so.

Wealth of the Few Belongs to the Many

By Senator JOHN D. WORK of California

THE ruling class in this country is the moneyed class. Wealth power and position are ARRAYED AGAINST THE MEN AND WOMEN WHO TOIL FOR A LIVELIHOOD.

They look upon themselves as superior to what they call "the lower classes."

The effective way to overcome this evil is to ELEVATE THE STATION OF THE WAGE EARNERS and curb the power of the employer class.

No better way occurs to my mind than REGULATION of prices, wages and hours of labor.

THE ACCUMULATION OF THE MILLIONS OF DOLLARS NOW IN THE HANDS OF A COMPARATIVELY FEW PEOPLE IN THIS COUNTRY HAS IN THE MAIN BEEN ACCOMPLISHED THROUGH THE TOLL OF THE MANY UNDERPAID EMPLOYEES WHO ARE STILL STRUGGLING FOR A MERE EXISTENCE.

INTERESTING BITS OF NEWS

(By John E. M. Kerr.)

Report made Friday by the educational committee of the Northern Baptist convention, showed that more than half of all the money invested in Baptist educational institutions is expended for two colleges—the University of Chicago and Vassar. It was also pointed out that the funds for the universities come to a large degree from John D. Rockefeller.

The Pennsylvania railroad is soon to establish a wireless telegraph station in Pittsburgh to connect with Philadelphia and other division points. Towers will soon be established at Altoona and Philadelphia.

Norfolk and Western has completed a survey of the flood damage in Ohio, and finds that to make repairs will require 500 men for four months and 200 for four months longer. The work will be finished sometime in 1914. Estimated damage and value of lost material is \$526,500, while loss of revenue due to flood approximates \$500,000. A further expenditure of \$700,000 will be required to prevent similar loss under like conditions.

Addition of 7540 miles of railroad equipped with block signals in the year of 1912 is the record made public by the Interstate Commerce commission.

The total mileage now operated with block signals in the U. S. is 83,949 miles, of which 22,218 are under the automatic system and 61,731 the manual type. Decreasing use of the telegraph and increasing use of the telephone, in the transmission of train orders, are shown in a table in the bulletin.

Permission was given by the Mining Commissioners of Ontario, Canada, to the Kerr Lake and Crown Reserve Mining companies to drain Kerr Lake, Cobalt, for a period of 7 years. Kerr lake is the center of the silver bearing area of the Cobalt camp and by drawing off the water, an engineering feat, great deposits of almost pure silver may be uncovered.

According to the latest statistics the total mileage of public roads in the United States is in round numbers 2,200,000, and the total mileage of improved roads 224,000, making the percentage of improved roads 10 per cent. In the state mileage, Texas leads with a total of some 128,000 miles with Iowa and Kansas following with totals of 102,000 and 98,000 respectively. Little Rhode Island has but 2120 miles of public road and Utah only 8320.

Ten owners of a coal mine under the city of Scranton, Pa., sued the Delaware and Hudson Railroad company for \$6,000,000 Friday in the Supreme court. They say they leased the mine to the company in 1861 for its contents. Plaintiffs say the mine can be worked 40 years yet, but if the lessee continues its present system they will lose \$6,000,000.

BUNCH OF WRECKS

ON D. T. & I.

Decoration Day was a bad one for the D. T. & I. railroad, which suffered a number of small wrecks on that day.

Four freight cars left the rails a few miles below Bainbridge, and tied up traffic for several hours.

A wreck earlier in the day had started the wreck train through from Springfield, and when it was near

Bainbridge the huge derrick toppled over in the ditch, causing a general tie-up for several hours.

To top out the troubles of the day the Grasshopper "limited" took a notion to cut across country, and did so until it struck the ditch, where it remained the remainder of the day and Friday night.

Several of the passenger trains were late on account of the series of mishaps.

BOLD NIGHT PROWLER BADLY FRIGHTENS SLEEPING WOMAN AT EARLY HOUR THIS MORNING

ENTERS MURRAY BLOCK FAMILIAR WITH PLACE

Unknown Intruder Again Makes His Appearance in Heart of the City and Escapes After Police Search Premises—Milady's Quality Shop the Scene of Excitement Early This Morning—Citizens Becoming Aroused.

Washington citizens are becoming much aroused over the repeated visits of some unknown prowler who seems to have a mania for entering residences at all hours in the night and frightening women folks out of their wits by his sudden appearance, and as a result of the frequent visits of the intruder during the past two or three weeks, extra precaution has been taken to guard against the rascal effecting an entrance.

The last visit of the intruder occurred Saturday morning shortly after two o'clock, when Miss Aleshire and Mrs. Whiteside, who occupy apartments in the rear of their store on East Court street, were aroused by someone in the room immediately back of their apartments, and which connect with their apartments by a door and window, the window being wide open.

As soon as they heard the fellow in the adjoining room they switched on the lights in the store and called the police, who arrived within a few minutes and made a hurried search of the premises, but found no one about. The rear door connecting with a room leading to the alley was open, and there was every evidence that the fellow had been searching about the place.

Within a half hour after the police left the fellow was heard in the room once more, and this time he hurried to a door leading into the Haynes Furniture store, pulled the door open after breaking a hook on it, and then hurrying through the Haynes store he left the building through a repair shop in the rear. This was discovered by the police after they were called the second time. Miss Aleshire is of the opinion that the fellow was concealed somewhere in the room and had been overlooked by the police.

The intruder was evidently very familiar with the building, and knew every door and how it was fastened. The police are working on what little clew was left by the fellow.

This is only one of numerous instances where the prowler has been busy during the past few weeks, but he has so far always succeeded in making his escape. It is the general opinion of those who are familiar with the circumstances of the various visits that the fellow is mentally unsound.

WILSON'S HINT STIRS UP NEST OF HORNETS IN CAPITAL CITY

HE WELCOMES INVESTIGATION

Wilson Favors Probe into Doings of Tariff Lobby.

SENATE DIRECTS AN INQUIRY

Resolution Adopted Authorizes an Investigation by the Judiciary Committee of the Senate—Names of All Lobbyists and Their Mission To Be Reported to the Senate—Committee's Power Unlimited.

Washington, May 30.—The senate voted unanimously to direct an investigation into the charge made by the president that a lobby is in Washington seeking to influence sentiment on the Underwood tariff bill. The resolution, introduced by Senator Cummins of Iowa, was passed after more than four hours of hot debate, but after it had been amended in such a way that Senator Root and others declared that it was emasculated.

The resolution has given the Democratic leaders a great deal of trouble. They would gladly have avoided the investigation, not because they feared the disclosure, but because they realize that it is likely to take up a lot of time of the senate that might be devoted to expediting the tariff bill, but President Wilson showed no disposition to stand out against the investigation. On the contrary, he welcomed the investigation, and sent word to the party leaders he stood ready to place at their disposal information to back up his charges.

As amended, the resolution authorizes an investigation by the judiciary committee of the senate instead of by a select committee. The committee is instructed to report within 10 days the names of all lobbyists attempting to influence any pending legislation and the methods employed to accomplish their ends. In giving the name of the lobbyist the committee is further instructed to give the particular bill upon which he is working, and if it be the tariff bill, the item he is seeking to change.

The committee is further to inquire and report: Whether any senator is financially or professionally interested in the production or manufacture or sale of any article or articles mentioned in said tariff bill, and if so, to what extent, or in any other legislation now pending or that has been considered during his term as a senator.

The committee is authorized to administer oaths, subpoena witnesses and send for persons and papers in the prosecution of the investigation.

COX PARDONS TWO

Brace of Convicts Made Happy On Memorial Day.

Columbus, O., May 30.—Jacob Kneecoe, 70, civil war veteran, serving seven years in the penitentiary from Hocking county for manslaughter, was given the Memorial day pardon by Governor Cox. He has been in prison since February, 1912, and is suffering with the infirmities of age.

Jesse MacGregor, serving life for the murder of Lizzie Ewing in Columbiana county in 1894, also was given a pardon by Governor Cox. MacGregor will receive \$12,000 from his mother's estate. One of the conditions of his pardon is that he must leave the state and cut out drinking.

Coal Merger Proposed.

Columbus, O., May 30.—Plans are under way for a \$10,000,000 merger of the Youghiogheny and Ohio Coal company, Cleveland, and the Lorain Coal and Dock company, Columbus, according to Edward Johnson, president of the latter concern. The properties of the various companies are largely located in Belmont county.

A last game on home ground was a tough one for the Athletics to lose. Premier box week to them for the local team.

A wind which blew to the disadvantage of Washington's infielders.

Nine strikeouts by Hidy as compared with three for the famous "Red" Cline for the visitors.

That in brief is the story of Friday's defeat of the local baseball team by the Shamrocks of Cincinnati, the class of all amateur baseball teams of Ohio.

The Athletics played ball from start to finish and fairly carried the visitors off their feet for the first six innings.

In that biggest end of the game the Shamrocks were eating out of Hidy's hand. The way he breezed the ball across the plate was a pattern for Matthewson to follow. Only two measly little hits in all that long session.

Hagerty caught in fine style and his throwing to second was superb. Our boys outhit their opponents but fell shy in the field and couldn't connect with that old side partner of winning teams "old timely hit."

The visitors scored first in the fifth.

The home team not to be outdone

came right back and put a tally over on their own account and tied it up.

Washington made her lone tally like this:

Ogle, the first man up, landed on a fast one, good for two bases. Runnells followed with a clean two-bagger to center scoring Ogle.

In the seventh Washington had three on—Ogle connected for another safe hit—Runnells singled, Hidy was hit by the pitcher clogging the sacks. It looked like "big diddings" sure, but Hagerty knocked a pop fly to the second baseman and was out while the three base runners were glued to the cushions. Early out three large slices in the atmosphere and went back to the bench. Then Noon laced a beautify to center, tickled for a clean home run, but Wiserman in a center ran clear back to the fence and speared it for the third out, the most disastrous put-out for Washington of the half-dozen which the busy center-fielder pulled down.

After that it was nothing doing for Washington.

In that awful eighth, Warner for the visitors laid down a neat bunt in front of the plate and was safe.

Snyder followed with a pop-up which

our boys watched fall safe. Dacey followed with a daisy to center scoring two runs. Then Farrell scored

two more. Hagerty and Wiserman in a center ran clear back to the fence and speared it for the third out, the most disastrous put-out for Washington of the half-dozen which the busy center-fielder pulled down.

City Charter For Washington?

If The People of This City Desire to Avail Themselves of the New Form of Government, the Second Step is:

The City Charter

A city's charter is its constitution, and it serves the same purpose to the city that the constitution of Ohio does to the state, or the constitution of the United States to the nation. In the pioneer days, before Ohio had a constitution, its form of government was devised by the congress of the United States.

But, when Ohio became a state, it adopted its own constitution, deciding for itself what form of government it should have and how its own affairs should be managed, and since then it has changed its constitution several times without consulting congress in the matter.

Since the state of Ohio was formed, the municipalities of the state have borne the same relationship to the legislature as Ohio did to congress before it became a state. The purpose of a city, therefore, in seeking to adopt its own constitution, is to free itself from the control of the legislature in the management of its own local affairs.

In Ohio today, no city has a constitution or a charter. Therefore all are controlled by the legislature, to the extent that they can do nothing in regard to their own local affairs without the legislature enacting a law, expressly giving them permission to do a certain thing. When a city adopts a charter, it then becomes freed from the control of the legislature to the extent that it can do anything it desires in the management of its own affairs, which does not conflict with the general laws, or the constitution of Ohio.

In its charter, the city designates the form of government it shall have, and the powers and duties of the officials under that form, together with the powers of the people to oversee, veto or set aside whatever is done by their officials which does not meet with their approval.

The oldest of the modern forms of municipal government, the federal plan, will be described in the next issue.

This is the second of a series of articles describing the commission form of government which is agitated for this city. The first article was in Thursday's issue of THE HERALD.

ANOTHER DEFECT FOUND IN NEW LAW

Though every effort was made, by legislators to keep defects from creeping into the Freibolin act, remodeling the judicial system in conformity to the constitutional amendment adopted last fall, and the appropriation bills, one seems to have gotten in which may greatly hamper the court of appeals. Most of the cases have to be reported and provision is made for stenographers, but there is no appropriation to pay the stenographers.

Until the defect can be remedied at the next session of the legislature, there will be no means for paying them unless the emergency board sets aside enough money to tide them over. Salaries are to be fixed by the judges and payment is to be made from the state treasury.

VOTE ON FEMALE SUFFRAGE NEXT YEAR

State officers of the Equal Suffrage association of Ohio met in Columbus Tuesday to plan organization for the 1914 campaign for woman's suffrage in Ohio, when initiative petitions will be circulated to so amend the state constitution.

A survey is to be made of every large city in the state at once to effect an organization. The survey has already been started in Cleveland and will be taken up next in Columbus. Two women in each precinct of the city will visit every home and will take the names of all voters, enroll women in the movement where they are friendly to the cause, and where they are not interested, they will try to interest them.

NEARLY ALL RIGHT- OF-WAY SECURED

Nearly all of the right-of-way has been secured for the Washington to Leesburg electric light line which will carry "juice" for the street lights, business and residence lights and power for Leesburg, and the actual work on the line will commence within a short time unless something unforeseen develops.

By the middle of the summer it is expected that Leesburg will be obtaining light and power from the local plant.

Spring Lamb Chops for Breakfast

are always appetizing and when they come from Barchet's Market they are particularly tender and delicious, for a perfect lamb chop when properly cooked has a delicious flavor and taste to it that is not excelled by any other meat. But no matter how well cooked they are, chops like any other meat must be up in quality or it will be insipid, which is equally true of any fresh meat. Therefore you must have a reliable butcher to give your cook a chance.

BALKAN LEAGUE ACCEPTS POWERS' PEACE PROPOSALS

BALKAN WAR ENDS; PEACE PACT SIGNED

Treaty Embodies Conditions Stipulated In Powers' Note

London, May 30.—The Balkan war, which began on Oct. 8, 1912, was ended shortly after noon today, when the delegates representing the Balkan league and the Ottoman empire signed the draft of a peace treaty prepared by Sir Edward Grey, the British foreign secretary, on behalf of the powers. Sir Edward Grey made a brief address to the delegates at St. James palace, and left the conference immediately after the signing of the treaty, leaving the delegates to discuss the questions which are not covered by the agreement ending the war.

The peace treaty embodies the conditions of peace stipulated in the powers' note of April 13 and accepted by the allies on April 21. It provides for "perpetual peace and amity" between the contracting parties. It gives to the allies all of Turkey in Europe west of a line drawn between Enos, on the Aegean sea, and Nidja on the Black sea, but leaves the future of Albania in the hands of the powers. The treaty provides that Turkey cede the island of Crete to the allies, leaving all the other Aegean islands and the peninsula on which Mount Athos stands to the powers' decision. The financial questions arising from the war are to be settled by an international committee meeting in Paris.

OHIO HAPPENINGS

Backhus Goes Free.
Columbus, O., May 31.—Acting under an oral application for rehearing made Thursday afternoon by Attorney Thomas H. Clark after he had overruled the demur to the indictments against H. W. Backhus, late treasurer of the defunct Columbus Savings and Trust company, Judge Kinkead sustained the demurrs to the indictments against the former bank official.

Graduates: Drowns.

Ashville, O., May 31.—George Courtright, 18, eldest son of Jesse Courtright of Walnut township, who had just graduated from the Ashville high school, was drowned in the Scioto river, near South Bloomfield, where his class and other high school students were holding a picnic. He attempted to swim across the stream.

Negroes In Fatal Fray.

Steubenville, O., May 31.—A quarrel between southern negro dam workers took place at New Cumberland, and it resulted in a killing when George Day struck Bud Rickets on the head with a hatchet, crushing his skull, causing his death in a short time. Day escaped, but was caught later.

Woman Leaps From Buggy; Killed.

Norwalk, O., May 31.—Fearing a runaway when the horse which she was driving kicked through the dash board, Mrs. Alfred Fisher jumped from the buggy, striking her head on the brick pavement. She received injuries from which she died almost immediately.

Prominent Priest Dead.

Somerset, O., May 31.—Rev. Albert Reinhart, one of the most widely known Dominican priests in the country, who has spent much time in Ohio and who died in Washington, was buried here today. He was a well-known writer of prose and verse and was in constant demand as an orator. Much of Father Reinhart's life was spent in this village, where he labored as editor of the Rosary Magazine. He was born in Cincinnati in 1860.

Starter Killed In Motordrome.

Cleveland, O., May 31.—The second fatal accident to happen at the Luna park motordrome this season occurred last night, when Wiley Gibson, a motorcycle rider, ran down and killed Samuel Hickman, 20, who was employed at the motordrome as a starter.

Engineer Takes Acid.

Columbus, O., May 31.—Evidently despondent over his inability for longer service, John Harris, 58, an old engineer, drank carbolic acid in an alley. He died five minutes after being carried into jail.

Boy Attacked By Dog.

Bellefontaine, O., May 31.—A sheepdog attacked Curtis Brown, 11, and sank its teeth into the boy's cheek.

Thousands Cheer Lusty When He
Waves the Flags of France and the
United States—Merz, Who Finished
Third, Makes Last Lap With His
Machine on Fire—Order of the
Finish.

Indianapolis, May 31.—Jules Goux in the French car Peugeot, won the 500-mile prize of \$20,000 and practically everything else in sight. His winnings will aggregate more than \$35,000. The order of the finish was:

Driver and Car Time
1-Jules Goux (Peugeot) 6:21:43
2-Spencer Wishart (Mercedes) 6:45:06
3-Charles Merz (Stutz) 6:50:35
4-Albert Pusot (Sunbeam) 7:05:08
5-Theo. Peltete (Knight) 7:19:35
6-Howard Wilcox (Graves) 7:23:38
7-Ralph Mulford (Mercedes) 7:27:17
8-Louis Dethrow (Cax) 7:30:50
9-G. H. Clark (Folsom) 7:49:21
10-W. Haupt (Mason) 7:57:31

A great cheer arose from the grandstand when Goux flashed across the wire, the winner of the big race. He went on and a second ovation was given him when he stopped at the pits.

When Goux stopped the winning car at the French pit his manager leaped on the track, and before the driver moved from his seat embraced and kissed him. Goux stepped to the track, waved the stars and stripes, then the French flag, to the grandstand.

Goux changed tires eight times during the race. He cried as tire after tire burned upon his machine in the 1st 150 miles. His victory was a popular one, and when he drew up at his pit and waved the flags of France and the United States, the crowds went wild.

Spencer Wishart, in Mercer special No. 22, also received a cheer when he raced under the checkered flag, the winner of second place.

A broken magneto in the 188th lap robbed Gil Anderson and his Stutz of the second prize when, after heavy driving, it appeared to be safely in his grasp.

Gives Crowd a Thriller.

With third place sure, Martin Merz's mechanician, coming down the back stretch, crawled out on the hood and had it unbuckled so the pitmen could extinguish the fire which had started.

In the last lap he gave the crowd one of the greatest thrillers of the big race. Merz fought the flames during the entire lap, Merz sticking grimly to the wheel. They jumped from the car before it fairly stopped at the pit, and hand grenades were used in putting out the fire. Merz was acclaimed the winner of third place.

One accident marred the race. Jack Tower suffered a broken leg and Mechanician Lee Gunning had three ribs broken. Their Mason car was upset on the fifty-first lap. All trophies in the race were won by Goux. He led at the finish of the 200, 300 and 400 mile marks and each century mark gave him, respectively, the Remy Grand Brassard trophy, valued at \$2,500; Prestolite trophy, value \$2,500, and the Wheeler & Schieber trophy, valued at \$10,000. Goux got into the lead in the first laps of the race and held it from that time to the end.

NEWETT MUST WIN OR FIGHT WILL BE CARRIED TO FINISH

TO APPEAL IF HE LOSES

Editor Newett Will Refuse to Abide by an Adverse Verdict.

Marquette, Mich., May 31.—Colonel Roosevelt's case will probably not be completed before Monday night, there still remaining at least a dozen witnesses for the prosecution. Court adjourned at noon today.

If George A. Newett, defendant in Roosevelt's libel suit, is asked to pay any amount from 6 cents, which constitutes "nominal damages," up to \$10,000, he will appeal to the supreme court on whatever grounds can be worked out. That Newett will refuse to abide by an adverse verdict is declared by his attorneys, coupled with a declaration that the case will be fought as long as there is a foot to stand upon.

Lawyers engaged in the libel suit are looking forward with great interest to a prospective ruling by Judge Flannigan, construing section 10425 of the Michigan compiled laws, bearing on libel. The law was designed to protect newspapers from the consequences of honest mistakes and provided that demand for retraction of a libelous article should be made by the offended party. Colonel Roosevelt made no such demand, it is admitted. The matter will come up again when counsel for Mr. Newett announced to Justice Goff that they rested their case. The court immediately awarded a decree to Mrs. Bishop.

Justice Goff expressed the wish that both sides come to some amicable arrangement regarding alimony and the custody of the children, and gave them until Monday to do so.

Speaking of figures, 1,000 men sat down to a banquet on the twenty-seventh floor of the fifty-seven-story Woolworth building.

MRS. BISHOP GETS DIVORCE

Consultation Between Attorneys Precedes Termination of Case.

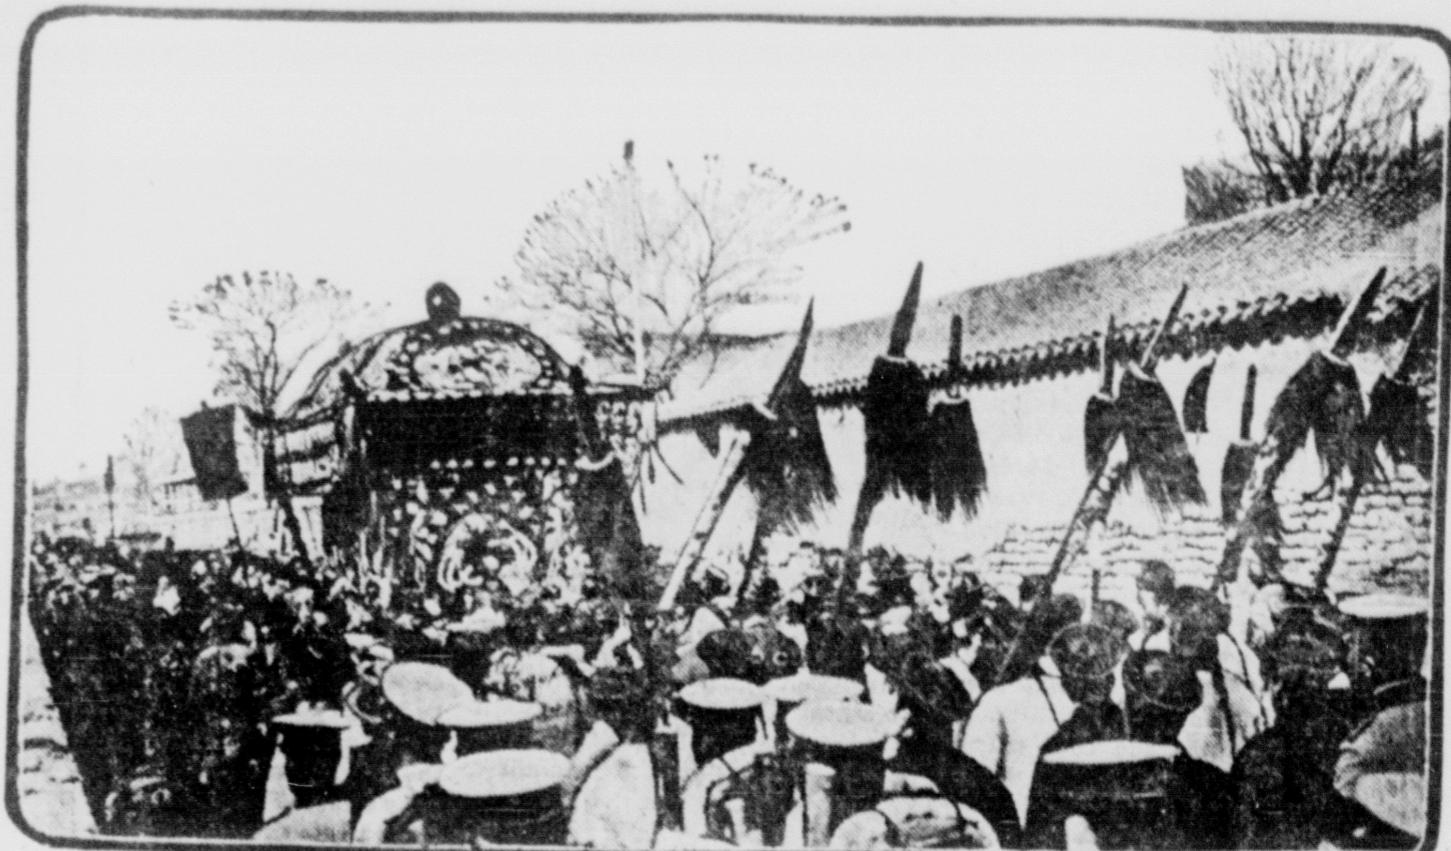

New York, May 31.—After a consultation for nearly five hours between the counsel for Mr. and Mrs. James Cunningham Bishop in Mrs. Bishop's suit for divorce on the ground that the banker was guilty of misconduct with Mrs. Leila Gaines Gwathmey, wife of J. Temple Gwathmey, former president of the New York cotton exchange, the lawyers for both plaintiff and defendant announced to Justice Goff that they rested their case. The court immediately awarded a decree to Mrs. Bishop.

Justice Goff expressed the wish that both sides come to some amicable arrangement regarding alimony and the custody of the children, and gave them until Monday to do so.

TWENTY INJURED IN TROLLEY CRASH

Interurban Cars in Collision Near Akron, Ohio.

FILLED WITH EXCURSIONISTS

Two Passengers Lose Both Feet in the Smashup, While Others Receive Severe Scalp Wounds and Sprained and Bruised Legs—Trolley Pole of First Car Broke, but Crew Had No Time to Stop Collision.

Akron, O., May 31.—Twenty persons were injured, four seriously, when an interurban car on the North Ohio Traction line crashed into the rear of another car filled with excursionists bound for Cleveland, eight miles north of Akron. The trolley pole of the first of the two cars, which left Akron at about the same time, broke, and before the conductor could flag the second car the collision occurred.

The persons most seriously injured were standing on the back platform of the front car and did not have time to jump.

Frank Betyurs of Coshocton, O., and Chester Jenkins suffered the loss of both of their feet. Mrs. William Allhouse of Akron received a scalp wound and several of her teeth were knocked out, and Mrs. Josephine Kline of Akron suffered the loss of several front teeth and was badly bruised.

Others in the front car received scalp wounds and sprained and bruised legs when they were thrown against the seats in front of them by the collision.

Fifteen of the most seriously hurt were taken back to a hospital at Akron. The others were taken to Cleveland.

AFTER NATIONAL AID

Columbus, O., May 31.—Prospects for Ohio getting a goodly portion of the \$500,000 appropriated by the federal government for good roads are looking brightly since State Highway Commissioner Marker visited boards of county commissioners of Franklin, Muskingum and Licking counties and secured the adoption of resolutions pledging the counties to put up \$2 for every \$1 contributed by the federal government. Each of the counties pledged \$20,000, which assures acceptance of the federal offer.

WITH A SHOVEL

Aviator Drops In Marsh When Parachute Fails to Work.

New York, May 31.—Arthur Lapham, a young man who has recently been attracting attention by making parachute leaps from aeroplanes, plunked to the earth from a machine at Oakwood Heights, Staten Island, and when those who ran to his assistance reached him only his head and shoulders were visible. They had to dig him out with a shovel. He had landed in marshy ground within a few feet of a small stream, and his rescuers swam across it. He was unconscious, but apparently suffering great pain, and the task of getting him out of the earth was accomplished with difficulty. It was nearly an hour before he was placed in an ambulance from the S. R. Smith Infirmary at Tompkinsville. It is said that he is not seriously injured, but is suffering greatly from shock.

Harry Brown, from whose biplane the leap was made, circled the field several times, but did not appear to be able to go higher than 200 or 250 feet. It appeared that his engine was not working properly, and no one supposed that Lapham would attempt to jump when so near the earth. Suddenly he was seen to leave the biplane. There was a flutter of canvas pieces as the wrapping about the parachute ropes were carried away in the wind. The body of the man was seen to shoot downward, but there was no opening of the parachute. Just before Lapham struck, the canvas spread, but too late to break the force of the fall.

TORNADO TERRORIZES PEOPLE OF VIRGINIA

Norfolk, Va., May 31.—A tornado hit this city, razing houses and felling trees in its path. In one section of the city 15 houses were blown down. A score of people are reported drowned from small boats in the bay and in Hampton Roads. Other nearby places also report losses. The storm hit Hampton, Newport News, Portsmouth, Ocean View and Old Point Comfort.

Bellefontaine, O., May 31.—Harry Huston, was accidentally shot by a companion as they were playing with a target rifle. The bullet entered Huston's abdomen and he may die.

PUGILIST INTERRED

Piqua, O., May 31.—The body of Luther McCarty, who met his death last Saturday during his fight with Arthur Pekey at Calgary, arrived here last night. In the funeral party were Mrs. Rhoda McCarty, widow of the fighter; Bill McCarney, McCarty's manager, and Fred Sears. The funeral was held here today.

DECEASED VETERANS ONCE MORE HONORED BY COMRADES WITH IMPRESSIVE CEREMONIES

THINNED RANKS A NOTICEABLE FEATURE

Large Crowds Attend Annual Decoration Ceremonies in This City—Attorney D. L. Thompson Delivers Appropriate Address to Crowded House—Ladies of G. A. R. Serve Refreshments to Old Warriors and Friends—Other Points Observe Day.

Decoration Day was fittingly remembered in Washington Friday. The stars and stripes waved throughout the business section and along the line of march to the cemetery and but few homes in the city but what bore some decoration in honor of the day. While threatening clouds gave promise of the usual Memorial Day deluge, they vented their wrath upon other neighborhoods and the day in this vicinity was one of the most pleasant in memory.

All afternoon the streets were lined with people, many not going to Memorial hall for the Decoration Day program, waiting to join the ranks for the March to the cemetery.

There was a large attendance at the memorial services, conducted with Commander D. R. Jacobs, presiding, and of that patriotic interest called out by no other day.

The reading of Gen. John A. Logan's Order 29 by Comrade Frank M. Allen and of Lincoln's Gettysburg oration by Miss Clara Thurston, were impressive features of the program.

Attorney D. L. Thompson delivered a splendid short oration.

Hon. W. D. Blakemore, a comrade from Iowa, also made very interesting remarks.

About three o'clock the procession formed for the march to the cemetery and the decoration of the graves of deceased comrades under command of Comrade Charles McCrea, marshal-in-chief and his assistants. A long line of carriages and autos accompanied the veterans of G. A. R. and their auxiliaries.

Arriving at the cemetery both the graves of dead comrades and ex-Confederates were decorated by Company M, 4th regiment, O. N. G. and Sons of Veterans, who turned out in large number.

Following this annual tribute of flowers placed on each grave the impressive services in honor of the unknown dead were held at the cen-

NEW MEMBERS ARE RECEIVED IN W. R. C.

Members of John M. Bell, W. R. C., met in special session Thursday afternoon. Mrs. Jennie Morris and Mrs. Edwards received the degrees of the order and were taken into full membership. The ladies are kept busy now getting ready to help entertain the encampment in June.

Quite an honor has been accorded No. 12, having been selected by the department president to exemplify the ritual as a school of instruction for 400 or more delegates who will attend the state convention which convenes at this place during the encampment. The convention will be held in Grace M. E. church, the school of instruction will be in Memorial hall.

Mrs. Brush, the department President, having seen the local corps put on the work at the district convention here last October complimented the corps very highly by saying it was the best drilled corps in the state. The membership of the Woman's Relief Corps in Ohio is 12,800.

A silk flag will be presented to the High school and one to Grace Sunday school by the department. The ladies will decorate an automobile for the parade on Wednesday. At the close of the meeting the ladies went in a body to the residence of Mrs. Jas. Hayes and initiated Mrs. Hayes into the order, she having had the misfortune to break an ankle some days ago and was not able to go to the hall for initiation.

STRAW TOO HOT ALARM TURNED IN

Thursday evening a passenger discovered smoke issuing from a boxcar near the Pennsylvania station and turned in an alarm, but the threatened fire was averted by the use of a small chemical extinguisher with little or no damage resulting.

It is supposed that the damp straw became overheated, and that if the fire had not been discovered when it was, it would have destroyed the car.

YOUNG COLORED MAN CONFESSES TO DEED

good reputation. He confessed to being in the room, as the fearful wounds on his face and neck so clearly indicate, but denies all knowledge of how he got there. He admits having been drinking earlier in the evening, and it is said that he is of the opinion that he walked into the Deere premises without knowledge of what he was doing.

Mrs. Deere was aroused about four o'clock, and discovered the intruder crouched on the floor near her bed, and when she screamed he sprang to his feet and dashed about the room in a dazed fashion, seeking some means of escape.

After the first few moments dashing about the room he sprang for the window "Don't you break that!" commanded Mrs. Deere, whose fighting blood was now thoroughly aroused. Brandon smashed the window with his fist receiving some ugly cuts on his hand. Springing toward the man she seized him and pulled him back into the room, but he shook himself free from her grasp and again leaped toward the window as if to plunge through.

Again and again Mrs. Deere pulled him back, and then seizing a chair commenced striking at him with it. Realizing that he was being cut to pieces in his attempts to crawl through the broken glass, Brandon seized a rug, placed it over his clenched fists and broke another window out, plunging through it and escaping after he had left blood all over the room from the big gashes in his face and neck where the glass had cut him.

Mrs. Deere's son-in-law, Ray Maddox and wife and child were in an adjoining room, and Mrs. Deere's small son was in the room with her. During the excitement the door between the two rooms was locked and Mrs. Deere for the most part fought the intruder alone until she literally forced him through the window. A loaded shot gun sat in the corner of the room near the window, but Mrs. Deere could not reach it until after Brandon escaped. Brandon made no effort to secure the weapon, although it was within easy reach. His only

object appeared to be to escape and to do it in a hurry.

While he was making his get-away Ray Maddox hurled a pitcher at him.

The police were summoned and trailed the man for some distance by the countless drops of blood.

After securing a good description of the man Patrolman Bell, who is thoroughly familiar with the colored population of the city, thought Brandon must be the man, and within a short time he and Patrolman Vaughn had Brandon in jail.

Brandon's face was a horrible sight, and his clothing was covered with blood. A physician who dressed his wounds in the county jail found a section of glass one inch long and a half inch wide still imbedded in his face. One sharp section of the glass nearly touched the jugular vein.

It is supposed that he entered the house by the front door, which Mrs. Deere had forgotten to lock.

Popular School Head Chosen For Three Years

Complete Corps of High School and Grade Teachers Employed for Ensuing Year with Only Five Changes in Personnel Taking Place.

At the regular May meeting of the City Board of Education a complete corps of teachers for the coming school year was chosen, including Superintendent.

For the latter position, Prof. Wm. McClain was unanimously chosen to succeed himself during the coming three years at a salary of \$2500 per annum. This action upon the part of the Board of Education meets with general approval as the schools have made wonderful progress during the past few years under the supervision of Prof. McClain, who has given unspurtingly of his time in a determined effort to place the Washington schools upon the highest possible plane. His retention as superintendent means that still greater progress is assured.

In selecting Supt. McClain's assistants, the Board has employed for next year all the old force insofar as they were applicants, and only five new teachers are included in the new list. They are Misses May Luttrell, Reba Ricketts, Faye Jobe, Ruby Fountain and Ethel Knox.

The salaries of the grade teachers range from \$10 to \$57.50 per month. Below is given the names of the teachers employed and the buildings in which they will teach, but it is impossible to give the assignments at this time.

FRIEDMANN SHUT OUT

Use of His Vaccine Prohibited in New York by Board of Health.

New York, May 30.—The use of the Friedmann vaccine, composed of live turtle bacilli, for the treatment of tuberculosis, was prohibited in this city by the board of health. The immediate result was the practical closing of the newly formed Friedmann institute.

The edict of the board of health embodied in a resolution and a change in the sanitary code, makes it illegal for anyone to use living bacteriological organisms in the inoculation of human beings in treating disease until after permission has been given for its use by the board after that body has made a rigid examination of it. Physicians say Friedmann vaccine will be barred forever in this state.

Dr. Friedmann arrived here from Providence and declined to discuss the action of the board of health. He said he would sail for Germany within a few days, never to return to this country.

An Office for Everybody.

The local Board of Health and the Health officer should not be expected to perform impossible tasks and to be in every nook and corner of the city ferreting out violations of the laws designed to bring about a better condition of affairs and therefore better health to the people of the city.

In the first place in cities of the size of Washington the positions are not remunerative ones by any manner of means and the unpopularity which attaches to the officials of the Department of Health who try to do their duty, is intense and costly to business success.

In the second place people, generally speaking, for some unknown reason, rebel at every regulation designed to promote sanitary conditions and become undying enemies of all officials who attempt to enforce these regulations.

Just why this is true is a mystery which has never been solved, but it is true nevertheless.

Therefore every good citizen should appoint himself a member of the Board of Health and a special Health officer and look after his own premises the very first thing. He should ascertain just what the requirements are and then set to work to enforce them on himself. Real down-right sincerity might result in adding to the laws in existence and doing really more in the way of better conditions than a literal compliance with the law.

Having "set his own house in order" every good citizen then has a perfect right and it is his duty to look about him and see that his neighbors do likewise.

If his neighbors rebel then carry the report to the Health officer and stand at his shoulder while he makes the offender "come clean."

In spite of all the warnings, requests and threats published by the Health officer there are a number of residents of Washington who pay no more heed to cover filth receptacles which have come under the ban than they do to the flies, gnats and poisonous insects such places breed by millions.

This is the time of year when one fly means a million later on and no one is so far back in the dark ages now that he does not know what a menace to public health flies are demonstrated to be.

It is high time to take the matter in hand and see to it that offenders against the public health are made to obey the law at least. No good citizen need sit back and complain about the failure of the Health officer and expect him to do it all.

Every good citizen should get busy.

Here is a golden opportunity for every man to hold an office of importance. All that is necessary is to file your own application, make the appointment and enter upon the discharge of the duties of the office.

An office and a good one for everybody.

No doubt many easy going citizens who wonder where the flies and bugs come from would be surprised, if they made a circuit around their premises to find the flagrant violations of these most necessary laws.

Too much importance cannot be attached to these rules of the Health department of the state and any man who has a hide thick enough to persist in violating these rules will not be hurt by the infliction of a penalty for his conduct.

A short and energetic crusade right now, continued for a few weeks, will be productive of good of inestimable value later on. The good which follows the observance of the rules requiring cleanliness, both direct and remote, and the evil which follows the non-observance of these requirements is long enduring. The crusade against filth and disease to be effective, must be general and those who will not join voluntarily should be compelled to do so.

Wealth of the Few Belongs to the Many

By Senator JOHN D. WORK of California

THE ruling class in this country is the moneyed class. Wealth power and position are ARRAYED AGAINST THE MEN AND WOMEN WHO TOIL FOR A LIVELIHOOD.

They look upon themselves as superior to what they call "the lower classes."

The effective way to overcome this evil is to ELEVATE THE STATION OF THE WAGE EARNERS and curb the power of the employer class.

No better way occurs to my mind than REGULATION of prices, wages and hours of labor.

THE ACCUMULATION OF THE MILLIONS OF DOLLARS NOW IN THE HANDS OF A COMPARATIVELY FEW PEOPLE IN THIS COUNTRY HAS IN THE MAIN BEEN ACCOMPLISHED THROUGH THE TOIL OF THE MANY UNPAID EMPLOYEES WHO ARE STILL STRUGGLING FOR A MERE EXISTENCE.

Good shoes are not so common that you can afford to take any chance in buying.

If you get a shoe with the name  on it, you are sure, before you pay any money, that you're getting all the value your money will buy.

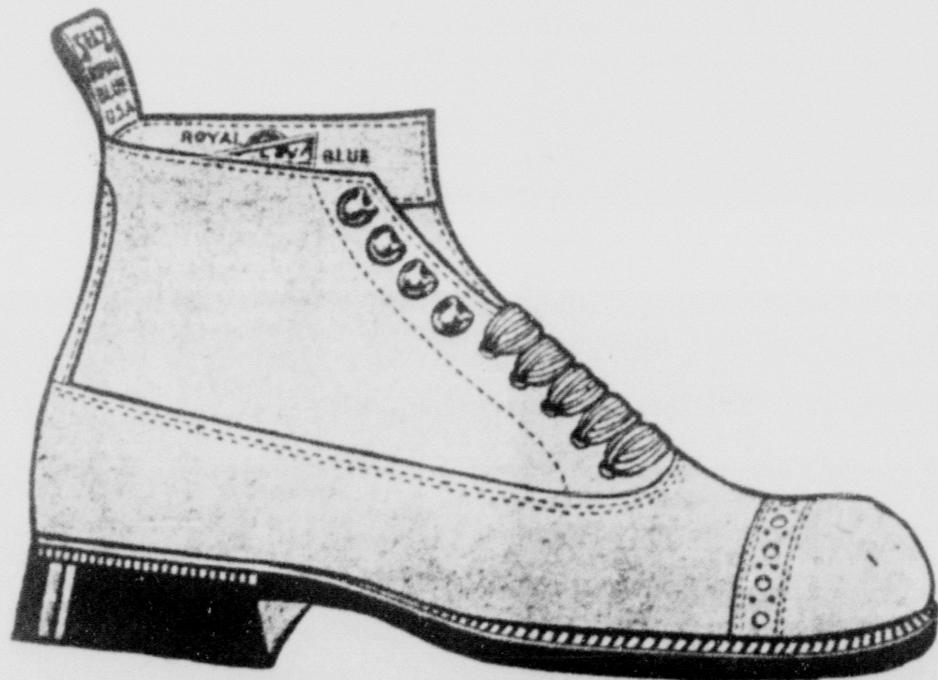

The easiest way to get shoes that are right is to come here for them. The surest way of knowing they are right before you pay your money for them is to see that the name  is on the sole.

A guarantee of the wearer's satisfaction goes with every pair of Selz shoes.

Selz shoes for men \$3.50, \$4.00, \$4.50, \$5.00

For women **\$3.00 to \$5.00**

Selz Liberty Bell shoes for children are better than usual.

On Wednesday of G. A. R. week there will be an Automobile Flower and Flag Parade.

The committee having same in charge is making every effort to have this parade prove a feature of merit.

Washington has had two such pageants in the past, and the precedent established has been of a high order.

The parade will prove a success in so much as every citizen does his or her part in making it so.

Please remember when you are asked for a donation of your time and energy, that it is your contribution toward making the G. A. R. Encampment a success.

BUNCH OF WRECKS

ON D. T. & I.

Decoration Day was a bad one for the D. T. & I. railroad, which suffered a number of small wrecks on that day.

Four freight cars left the rails a few miles below Bainbridge, and tied up traffic for several hours.

A wreck earlier in the day had started the wreck train through from Springfield, and when it was near

Bainbridge the huge derrick toppled over in the ditch, causing a general tie-up for several hours.

To top out the troubles of the day the Grasshopper "Limited" took a notion to cut across country, and did so until it struck the ditch, where it remained the remainder of the day and Friday night.

Several of the passenger trains were late on account of the series of mishaps.

With tuberculosis serum, cancer serum and others being developed these days, why not produce a serum for the cure of joyriding?

BOLD NIGHT PROWLER BADLY FRIGHTENS SLEEPING WOMAN AT EARLY HOUR THIS MORNING

ENTERS MURRAY BLOCK FAMILIAR WITH PLACE

Unknown Intruder Again Makes His Appearance in Heart of the City and Escapes After Police Search Premises—Mi-lady's Quality Shop the Scene of Excitement Early This Morning—Citizens Becoming Aroused

Washington citizens are becoming much aroused over the repeated visits of some unknown prowler who seems to have a mania for entering residences at all hours in the night and frightening women folks out of their wits by his sudden appearance, and as a result of the frequent visits of the intruder during the past two or three weeks, extra precaution has been taken to guard against the rascal effecting an entrance.

The last visit of the intruder occurred Saturday morning shortly after two o'clock, when Miss Aleshire and Mrs. Whiteside, who occupy apartments in the rear of their store on East Court street, were aroused by someone in the room immediately back of their apartments, and which connect with their apartments by a door and window, the window being wide open.

As soon as they heard the fellow in the adjoining room they switched on the lights in the store and called the police, who arrived within a few minutes and made a hurried search of the premises, but found no one about. The rear door connecting with a room leading to the alley was open, and there was every evidence that the fellow had been searching about the place.

Within a half hour after the police left the fellow was heard in the room once more, and this time he hurried to a door leading into the Haynes Furniture store, pulled the door open after breaking a hook on it, and then hurrying through the Haynes store he left the building through a repair shop in the rear. This was discovered by the police after they were called the second time. Miss Aleshire is of the opinion that the fellow was concealed somewhere in the room and had been overlooked by the police.

The intruder was evidently very familiar with the building, and knew every door and how it was fastened. The police are working on what little clew was left by the fellow.

This is only one of numerous instances where the prowler has been busy during the past few weeks, but he has so far always succeeded in making his escape. It is the general opinion of those who are familiar with the circumstances of the various visits that the fellow is mentally unsound.

WILSON'S HINT STIRS UP NEST OF HORNETS IN CAPITAL CITY

HE WELCOMES INVESTIGATION

Wilson Favors Probe into Doings of Tariff Lobby.

SENATE DIRECTS AN INQUIRY

Resolution Adopted Authorizes an Investigation by the Judiciary Committee of the Senate—Names of All Lobbyists and Their Mission To Be Reported to the Senate—Committee's Power Unlimited.

Washington, May 30.—The senate voted unanimously to direct an investigation into the charge made by the president that a lobby is in Washington seeking to influence sentiment on the Underwood tariff bill. The resolution, introduced by Senator Cummings of Iowa, was passed after more than four hours of hot debate, but after it had been amended in such a way that Senator Root and others declared that it was emasculated.

The resolution has given the Democratic leaders a great deal of trouble. They would gladly have avoided the investigation, not because they feared the disclosure, but because they realize that it is likely to take up a lot of time of the senate that might be devoted to expediting the tariff bill, but President Wilson showed no disposition to stand out against the investigation. On the contrary, he welcomes the investigation, and sent word to the party leaders he stood ready to place at their disposal information to back up his charges.

As amended, the resolution authorizes an investigation by the judiciary committee of the senate instead of by a select committee. The committee is instructed to report within 10 days the names of all lobbyists attempting to influence any pending legislation and the methods employed to accomplish their ends. In giving the name of the lobbyist the committee is further instructed to give the particular bill upon which he is working, and if it be the tariff bill, the item he is seeking to change.

The committee is further to inquire and report: Whether any senator is financially or professionally interested in the production or manufacture or sale of any article or articles mentioned in said tariff bill, and if so, to what extent, or in any other legislation now pending or that has been considered during his term as a senator.

The committee is authorized to administer oaths, subpoena witnesses and send for persons and papers in the prosecution of the investigation.

ATHLETICS LOSE THE FIRST GAME TO SHAMROCKS

Foozies and Hits in the Awful Eighth Spilled the Beans and When the Local Team Woke Up the Game Was in the Shamrock Ice Bag

A Hot Game of Base Ball, a Tough One for the Athletics

Previous Six Weeks a Steady Local Team

A Warm Welcome to the Shady Advantage of Washington's Infidels

Nine strikeouts by Hidy as compared with three for the bantams by Cline for the visitors

That in brief is the story of Friday's defeat of the local baseball team by the Shamrocks of Cincinnati, the class of all amateur baseball teams of Ohio.

The Athletics played ball from start to finish and fairly carried the visitors off their feet for the first six innings.

In that biggest end of the game the Shamrocks were eating out of Hidy's hand. The way he breezed the ball across the plate was a pattern for Matthewson to follow. Only two measly little hits in all that long session.

Hagerty caught in fine style and his throwing to second was superb.

Our boys outhit their opponents but fell shy in the field and couldn't connect with that old side partner of winning teams "old timely hit."

The visitors scored first in the fifth. The visitors scored first in the fifth. The home team not to be outdone came right back and put a tally over on their own account and tied it up.

Washington made her lone tally like this:

Ogle, the first man up, landed on a fast one, good for two bases. Runnels followed with a clean two-bagger to center scoring Ogle.

In the seventh Washington had three on—Ogle connected for another hit by the pitcher clogging the sacks.

It looked like "big diddings" sure, but Hagerty knocked a pop fly to the second baseman and was out while the three base runners were glued to the cushions. Early cut three large slices in the atmosphere and went back to the bench. Then Noon faced a beauty to center, ticked for a clean home run, but Wiser man in center ran clear back to the fence and spared it for the third out, the most disastrous put-out for Washington of the half-dozen which the busy center-fielder pulled down.

After that it was nothing doing for Washington.

In that awful eighth, Warner for the visitors laid down a neat bunt in front of the plate and was safe.

Snyder followed with a pop-up which our boys watched tall safe.

Dacey followed with a daisy to center scoring two runs. Then Farrell scored Dacey with a clean bingle and Wiser man in center ran clear back to the fence and spared it for the third out.

Four large, juicy tallies and the game.

Cline kindly ended the agony with a fly to center retiring the side.

Well, today is and tomorrow are other days and our boys have their nerve now.

Watch them make things interesting for the classy visitors.

City Charter For Washington?

If The People of This City Desire to Avail Themselves of the New Form of Government, the Second Step is:

The City Charter

A city's charter is its constitution, and it serves the same purpose to the city that the constitution of Ohio does to the state, or the constitution of the United States to the nation. In the pioneer days, before Ohio had a constitution, its form of government was devised by the congress of the United States.

But, when Ohio became a state, it adopted its own constitution, deciding for itself what form of government it should have and how its own affairs should be managed, and since then it has changed its constitution several times without consulting congress in the matter.

Since the state of Ohio was formed, the municipalities of the state have borne the same relationship to the legislature as Ohio did to congress before it became a state. The purpose of a city, therefore, in seeking to adopt its own constitution, is to free itself from the control of the legislature in the management of its own local affairs.

In Ohio today, no city has a constitution or a charter. Therefore all are controlled by the legislature, to the extent that they can do nothing in regard to their own local affairs without the legislature enacting a law, expressly giving them permission to do a certain thing. When a city adopts a charter, it then becomes freed from the control of the legislature to the extent that it can do anything it desires in the management of its own affairs, which does not conflict with the general laws, or the constitution of Ohio.

In its charter, the city designates the form of government it shall have, and the powers and duties of the officials under that form, together with the powers of the people to oversee, veto or set aside whatever is done by their officials which does not meet with their approval.

The oldest of the modern forms of municipal government, the federal plan, will be described in the next issue.

This is the second of a series of articles describing the Commission form of government which is agitated for this city. The first article was in Thursday's issue of THE HERALD.

ANOTHER DEFECT FOUND IN NEW LAW

Though every effort was made by legislators to keep defects from creeping into the Freibolin act, remodeling the judicial system in conformity to the constitutional amendment adopted last fall, and the appropriation bills, one seems to have gotten in which may greatly hamper the court of appeals. Most of the cases have to be reported and provision is made for stenographers, but there is no appropriation to pay the stenographers.

Until the defect can be remedied at the next session of the legislature, there will be no means for paying them unless the emergency board sets aside enough money to tide them over. Salaries are to be fixed by the judges and payment is to be made from the state treasury.

VOTE ON FEMALE SUFFRAGE NEXT YEAR

State officers of the Equal Suffrage association of Ohio met in Columbus Tuesday to plan organization for the 1914 campaign for woman's suffrage in Ohio, when initiative petitions will be circulated to so amend the state constitution.

A survey is to be made of every large city in the state at once to effect an organization. The survey has already been started in Cleveland and will be taken up next in Columbus. Two women in each precinct of the city will visit every home and will take the names of all voters, enroll women in the movement where they are friendly to the cause, and where they are not interested, they will try to interest them.

NEARLY ALL RIGHT-OF-WAY SECURED

Nearly all of the right-of-way has been secured for the Washington to Leesburg electric light line which will carry "juice" for the street lights, business and residence lights and power for Leesburg, and the actual work on the line will commence within a short time unless something unforeseen develops.

By the middle of the summer it is expected that Leesburg will be obtaining light and power from the local plant.

CARNEGIE IS SATISFIED

Plymouth, England, May 31.—Mr. and Mrs. Andrew Carnegie arrived here. In an interview Mr. Carnegie expressed approval of the work of President Wilson's administration. He said he thought that in due time the Philippines would be permitted to govern themselves.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies and by gradually taking care with local treatment, pronounced it incurable disease has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts on the skin, blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

BALKAN LEAGUE ACCEPTS POWERS' PEACE PROPOSALS

BALKAN WAR ENDS; PEACE PACT SIGNED

Treaty Embodies Conditions Stipulated in Powers' Note

London, May 30.—The Balkan war, which began on Oct. 8, 1912, was ended shortly after noon today, when the delegates representing the Balkan league and the Ottoman empire signed the draft of a peace treaty prepared by Sir Edward Grey, the British foreign secretary, on behalf of the powers. Sir Edward Grey made a brief address to the delegates at St. James palace, and left the conference immediately after the signing of the treaty, leaving the delegates to discuss the questions which are not covered by the agreement ending the war.

The peace treaty embodies the conditions of peace stipulated in the powers' note of April 13 and accepted by the allies on April 21. It provides for "perpetual peace and amity" between the contracting parties. It gives to the allies all of Turkey in Europe west of a line drawn between Enos, on the Aegean sea, and Nidia on the Black sea, but leaves the future of Albania in the hands of the powers. The treaty provides that Turkey cede the island of Crete to the allies, leaving all the other Aegean islands and the peninsula on which Mount Athos stands to the powers' disposition. The financial questions arising from the war are to be settled by an international committee meeting in Paris.

OHIO HAPPENINGS

Backhus Goes Free.

Columbus, O., May 31.—Acting under an oral application for rehearing made Thursday afternoon by Attorney Thomas H. Clark after he had overruled the demurrer to the indictments against H. W. Backhus, late treasurer of the defunct Columbus Savings and Trust company, Judge Kinkead sustained the demurrer to the indictment against the former bank official.

Graduates: Drowns.

Ashville, O., May 31.—George Courtright, 18, eldest son of Jesse Courtright, of Walnut township, who had just graduated from the Ashville high school, was drowned in the Scioto river near South Bloomfield, where his class and other high school scholars were holding a picnic. He attempted to swim across the stream.

Negroes In Fatal Fray.

Steubenville, O., May 31.—A quarrel between southern negro dam workers took place at New Cumberland, and it resulted in a killing, when George Day struck Bud Ricketts on the head with a hatchet, crushing his skull, causing his death in a short time. Day escaped, but was caught later.

Woman Leaps From Buggy; Killed.

Norwalk, O., May 31.—Fearing a runaway when the horse which she was driving kicked through the dash board, Mrs. Alfred Fisher jumped from the buggy, striking her head on the brick pavement. She received injuries from which she died almost immediately.

Prominent Priest Dead.

Somerset, O., May 31.—Rev. Albert Reinhart, one of the most widely known Dominican priests in the country, who has spent much time in Ohio and who died in Washington, was buried here today. He was a well-known writer of prose and verse and was in constant demand as an orator. Much of Father Reinhart's life was spent in this village, where he labored as editor of the Rosary Magazine. He was born in Cincinnati in 1860.

Starter Killed In Motordrome.

Cleveland, O., May 31.—The second fatal accident to happen at the Luna park motordrome this season occurred last night, when Wiley Gibson, a motorcycle rider, ran down and killed Samuel Hickman, 20, who was employed at the motordrome as a starter.

Engineer Takes Acid.

Columbus, O., May 31.—Evidently despondent over his inability for longer service, John Harris, 58, an old engineer, drank carbolic acid in an alley. He died five minutes after being carried into jail.

Boy Attacked by Dog.

Bellefontaine, O., May 31.—A shepherd dog attacked Curtis Brown, 11, and sank its teeth into the boy's cheek.
